Directions For Use:

Before using this product, test in a small, inconspicuous area to ensure compatibility. Determine proper dilution ratio as instructed below and test first. It is always best to start with a low dilution and work up to full strength to determine what will work best for the level of soiling being cleaned.

General Cleaning:

Mix 2-3 ounces of product with 32 ounces (8-12 ounces per gallon) of water to clean floors, appliances, stainless steel, bathroom fixtures, and painted or stained surfaces such as cabinets, baseboards and no-wax vinyl.

Heavy-Duty Cleaning:

Use full strength, spraying a generous amount on the area to be cleaned and allow it to remain on the surface to completely penetrate the buildup, then simply wipe away. For mold and mildew stains in grout, spray on, let penetrate for several minutes, then use a scrub brush to remove.

Step 1. Spray on surface and allow to sit for 1-2 minutes.

Step 2. Rinse or wipe clean with damp sponge, cloth or Microfiber towel.

STORAGE: STORE IN A COOL, DRY, WELL-VENTILATED AREA AWAY FROM INCOMPATIBLE SUBSTANCES. KEEP AWAY FROM HEAT, SPARKS AND FLAME. KEEP AWAY FROM SOURCES OF IGNITION. NO SMOKING. KEEP FROM FREEZING. DO NOT STORE IN UNLABELED OR MISLABELED CONTAINERS. PROTECT CONTAINERS AGAINST DAMAGE. KEEP CONTAINER TIGHTLY CLOSED WHEN NOT IN USE. **DISPOSAL:** DISPOSE OF IN ACCORDANCE WITH APPLICABLE FEDERAL, STATE AND LOCAL REGULATIONS.
