Directions For Use:

Shake Well Before Use

1. New teak should be allowed to weather for 2 weeks and rinsed with water prior to treatment.
2. Grey teak or teak treated with teak oil must be cleaned Teak Cleaner prior to treatment.
3. If cleaned wood feels rough, sand lightly prior to use of Teak Protector. Make sure the surface is completely dry and free of dust.
4. Shake well prior to use to assure consistent coverage and protection of the surface being treated.
5. Always test in a small inconspicuous area to assure the finish meets your expectations.
6. Apply a thin coating of Teak Protector evenly over the surfaces to be protected with a clean cloth, sponge, or spray applicator. Wipe any excess from the surface, if over applied and running. You can apply a second coat, after 30 minutes of drying time, this is recommended for new teak and when restoring badly weathered teak.
7. It is recommended that you treat your furniture with Teak Protector annually.
